

CHILDCARE FACILITY EXPANSION

An expansion was required for the childcare facility, to provide space for an additional 40 children and nine staff.

ATCO assisted by providing a full turnkey solution, including the design and installation of the childcare, covered walkways and decking, plus transport, and the overall landscaping of the facility.

ATCO maintained the strict design brief to maintain the childcare's branding and to provide an airy, open and aesthetically pleasing internal space for the children and staff alike.

PROJECT FEATURES

- ❖ ~ 260m² of childcare space, inclusive of kitchen and toileting facilities.
- ❖ Emphasis on energy efficiency and building sustainability during design phase.
- ❖ Recessed ceilings, timber look flooring.
- ❖ Expansion of existing facility, with requirement to tie the external façade to the existing structure.
