

Mambourin Enterprises Office

Commercial

Mambourin Enterprises is a NDIS-registered provider of support and care for individuals living with a disability. The social enterprise business requested a functional building to facilitate a safe environment for their staff and students.

Following a long thoughtful but successful design process ATCO delivered a building designed to meet disability, accessibility, and safety regulations while addressing the needs of the business and installation site constraints.

The building provides a safe collaborative environment for individuals working with the business to complete varying tasks such as packing, assembly, labeling, mail outs, and more.

This bright and breezy purpose designed building has a foot print of 60 m² and features a large open plan multipurpose room (with concertina dividers), a kitchen, first aid facilities, accessibility amenities, rainwater tanks, tactile paving, accessibility access ramps, and air conditioning.
