

DANDENONG NORTH PRIMARY SCHOOL

ATCO delivered a customised solution for the Department of Education following a mandate to reduce campus disruption utilising the benefits of prefabrication. The result was a bright, open, architecturally designed building virtually indistinguishable from traditional construction.

A full turnkey solution was provided with ATCO completing permitting, certification, design, civil, fire, installation, external construction, and all services reticulations & connections.

The new double storey classroom block provides students with state-of-the-art space to further their learning, in a comfortable modern building that ties in seamlessly to the surrounding school environment.

PROJECT FEATURES

- ❖ 6 General Learning Areas, 1 Library Space and amenities.
- ❖ Natural lighting throughout promoting bright open space
- ❖ Ground floor access seamlessly tied into surrounding terrain.
- ❖ Various claddings & roof lines increasing street appeal.
- ❖ Internal lift & feature stair with commercial glazed curtain wall backdrop enhancing aesthetic.
