

ELIWANA PERMANENT VILLAGE

The Eliwana 'Kartajiri' permanent village is home to 1,002 personnel, providing ample facilities to ensure a restful and recreational accommodation solution.

ATCO completed the design, construct and installation of all buildings, utilising existing ATCO buildings relocated from Onslow, WA with a combination of new manufacture buildings.

The project was completed on two work fronts and required precise inventory and logistics managements, in order to meet the separable portion and project schedules.

Recreational facilities including sporting oval, swimming pool, cricket pitch and fitness studios were delivered by ATCO.

PROJECT FEATURES

- ❖ Existing buildings relocated included 250 accommodation units, laundries and portions of gymnasium, kitchen diner, admin office and convenience store.
- ❖ New manufacture buildings included training / theatre room, bulk linen / chemical store and maintenance shed.
- ❖ On site retrofit works to kitchen diner, café convenience store, administration building and gymnasium.
