

GLNG ACCOMMODATION CAMP

1,344 personnel were housed in the double storey accommodation buildings designed, manufactured and installed by ATCO.

On behalf of Bechtel Australia, ATCO provided a full turnkey solution for the large workforce accommodation village required at Curtis Island in Queensland.

In addition to facilities to accommodate project personnel, ATCO provided central facilities including the kitchen, large office complex, and training centres.

ATCO met all project handover dates and delivered all portions on time, to budget and to high standards.

PROJECT FEATURES

- ❖ 425 double storey accommodation buildings designed and manufactured.
- ❖ Swimming pool, tennis court, beach volleyball court, three gymnasiums, tavern and recreation building were provided to provide ample downtime to project personnel.
- ❖ Detailed earthworks, inground service reticulation, telecommunications completed by ATCO.
