

## HUME CITY COUNCIL

*A change room and pavilion complex designed to highlight the social aspects and community togetherness of the local Hume City sports teams.*

ATCO delivered a 1000m<sup>2</sup> modular solution which was time and cost efficient, enabling reduced impact on the site as training continued. ATCO provided a full turnkey solution; permitting, certification, design, civil, installation, external construction, and all services reticulations & connections.

The quality solution provides change, referee, toilets and shower facilities for functionality, as well as club house with commercial kitchen, bar & dining to facilitate team collaboration and to celebrate community spirit.

## PROJECT FEATURES

- ❖ Floor to ceiling commercial glass to provide uninterrupted views of sporting fields and enhanced natural lighting.
- ❖ Modern, contemporary exterior with colours representing the local football club, invoking community ownership.
- ❖ Centralised social area and commercial kitchen as the entertainment hub.
- ❖ Architecturally designed timber ceiling to enhance the internal aesthetic.
