

WEST ANGELAS CONSTRUCTION CAMP

A complete workforce accommodation solution was delivered by ATCO for the 600p accommodation camp on behalf of Rio Tinto.

The West Angelas Deposits C&D mine site is located in the eastern Pilbara region of Western Australia, approximately 110km west-northwest of Newman.

ATCO completed the design, manufacture, transport and install of the whole camp, including central facilities, and recreational areas including lawn bowls areas and beer garden.

The camp was handed over in two separable portions, with all milestone dates met by ATCO.

PROJECT FEATURES

- ❖ (105) 14.4 x 4.2m four person accommodation units.
- ❖ Electrical fit out and onsite components were optimised to facilitate rapid deployment and the time sensitive installation timeframe requirements.
- ❖ Power generation, water treatment plant, wastewater treatment plant and car parking were additional elements delivered.
