CORRECTIONAL
SERVICES

www.atcosl.com.au | 1800 70 70 77

ATCO Structures and Logistic is currently involved in one of the largest infrastructure investments in NSW Government. In order to cater for the growing requirements, the NSW Government has implemented the Prison Bed Capacity Program which involves the supply of approximately 1650 modular prison beds across NSW.

KEY CHARACTERISTICS

- ▲ Extensive Design Development with all stake holders
- ▲ Prototype testing prior to mass production
- ▲ Continual Product Development
- ▲ Innovative Design compliant to National Cell Standards
- ▲ Efficient building process in a controlled environment
- ▲ 20-30% cheaper than alternative designs currently in the market, including in situ build techniques. These cost benefits are particularly relevant in regional areas where there are labour challenges.
- ▲ Single and double cell designs
- ▲ Mass production advantages and speed to market
- ▲ Efficient onsite installation
